

Babies That are fretful, or troubled with Windy Colic, Teething Pains, or Stomach Disorders, can be relieved at once by using Acker's Baby Soother. It contains no Opium or Morphine, hence is safe. Price 25 cents. Sold by W. PINNIGER, Druggist.

Syrup of Figs. Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is nature's own true laxative. This pleasant California liquid fruit remedy may be had of Wm. Pinniger, Reno, Nevada. Large bottles at 50 cents or \$1. It is the most pleasant, prompt and effective remedy known to cleanse the system; to act on the liver, kidneys and bowels gently yet thoroughly; to dispel headaches, colds and fevers; to cure constipation, indigestion and kindred ills.

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilis. It contains no opium, and is a whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it. W. PINNIGER, Druggist.

Unnecessary Suffering. Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason, no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, St. P.

At Night Always have Acker's Baby Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by W. PINNIGER, Druggist.

Take Care of the Throat. Many orators use Alcock's Porous Plasters for throat and lung troubles. Few preachers escape some affection of the voice, and many wear a fringe of beard under the chin as a protector for the delicate organs of speech. The Rev. A. A. Sheeler, of Hartley, Iowa, writes:

I am a Methodist minister, living in the northwestern part of the State of Iowa. I have been using Alcock's Porous Plasters for the past two years with very marked benefit. I have been very much troubled with bronchitis and a cough, which very much interfered with my preaching, but an Alcock's Plaster on my throat and on my chest completely cured me in two weeks.

Many Of the good things of life are sorrowful by lot on account of Dyspepsia. Acker's Dyspepsia Tablets will cure Dyspepsia, Indigestion and Constipation; sold on a positive guarantee at 25 and 50 cents, by W. PINNIGER, Druggist.

Give Them a Chance! That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousand of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and lung diseases, all are based on the same principle. There is just one sure way to get rid of them. That is to take Acker's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if every thing else has failed us, you may depend upon it.

Ladies In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Pinniger, Reno, Nevada.

Happiness and Health. Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Pinniger, Reno, Nev.

Bringing Gladness To millions, pleasing their palates, and cleansing their systems, arousing their livers, kidneys, stomachs and bowels to a healthy activity. Such is the mission of the famous California liquid fruit remedy Syrup of Figs. Fifty-cent and \$1 bottles for sale by Wm. Pinniger, Reno, Nevada.

FOR DYSPEPSIA and Liver complaints you have a printed guarantee on every bottle of Shiloh's Violette. It never fails to cure. Sold by Osburn & Shoemaker.

SLEEPLESS NIGHTS made miserable by that terrible cough, Shiloh's Cure is the remedy for you. For sale by Osburn & Shoemaker.

An Episode of the Trail.

Cor. Pueblo (Colo.) Review.

The clouds hung low in the northwest horizon, and the air was tingling with the breath of coming snow. The great sugar pines sobbed as the frost tightened their bark, and the dry leaves rattled beneath the cattle's feet, while strange echoes rolled through the still woods and died in the mountain recesses. The herd moved uneasily and sniffed at the light breeze anxiously. The five men that trailed behind the herd rode back and forth silently, chary of speech but prodigal of whiplash.

As the cattle poured down from the mountain gulches and spread out upon the white sage plains below, their guardians held a short council and one of their number left the herd to ride to the ranch for reinforcements.

True, the threatening storm still brooded over the higher peaks, but when it did break it would require a small army to handle the unreasonable herd. Hour after hour passed, and then, looking back, the herders saw a close grey mist that was sweeping over the hills and swallowing up the mountain range. Steadily it came and a herald ran swiftly before it, announcing with its shuddering breath the coming of the Arctic battalions.

With the first cold blast and its accompaniment of sharp icy needles the herd had huddled together, and with the increasing attacks of the sleet they commenced to drift, drift slowly, but irresistibly. As Ted Wiley turns his pony sharply after a straggling long-horn, the pony slips on a log and falls heavily, catching Ted's leg beneath him and breaking it. The other boys dismount, and after short consultation, decide that one shall stay with Ted and the other two drift with the cattle. A fire is started at the log and the two guards drift away slowly in the gathering twilight.

The twilight shades to night, the snow grows heavy under foot, but still the wind whistles the flying particles of sleet and beats the tired cattle on. It is hard work for the two men to keep the herd from splitting, but just about midnight they stumble across the mouth of the Black Arroyo and with feelings of relief turn the weary herd between its sheltering banks. There is no danger of the herd climbing the steep banks above and so the boys dismount to guard the gap below.

As they drop their pony's lines these treacherous animals give one snort, and with phenomenal speed dart out of the arroyo and across the plains into the darkness, leaving the two cowboys to gaze at each other in blank dismay.

"No fire, ho blankets and an all night guard," remarked Williams sententiously, with additional expressions evidently designed to warm the atmosphere.

While one of them tramped the snow down under the leeward bank, the other waded up the snowy allway and coming back presently announced the cattle all right and bedding down.

How the long hours crept by, and how the two lonely guards tried to keep their heat in the shivering bodies up by jokes and talk no one but the All-seeing one will ever know, but when the storm had passed and the rescue came they lay across the mouth of the arroyo, guarding with their dead bodies the charge which had been entrusted to their care.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world. JOHN S. GILSON, Real Estate Agent, Reno, Nev.

As good land as there is in Butte County. JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits. L. D. FREER, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world. M. BIGGS, JR., Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California. Riggs Argue.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better. JACOB KRUECK, Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. GEO. W. CHAM, Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich. Oroville Mercantile.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me. G. K. SMITH, Banker, Biggs.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms—one-third cash; balance in one, two and three years at eight per cent. per annum.

Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars.

ADDRESS, PREBLE & YOUNG, Managers Rio Bonito Colony, Biggs, Butte County, Cal., or Reno, Nevada.

FOR SALE AT A BARGAIN, 1300 ANGORA GOATS.

600 OF THEM THOROUGHLY BREEDS the best high-grade, terms easy—one-half cash, the balance in six months at one per cent. per month with approved security. The goats can be seen near Summit, Plumas Co., Cal. Correspondence solicited. J. R. HOUTSON, Summit, Plumas Co., Cal.

A WRITER in the *Argonaut* says the sewing women of San Francisco are working at starvation prices, as three dollars and sixty cents is the most they can earn in a week. The same writer advises this class of women to go to Southern California, where, if they will do housework, they will receive from twenty to twenty-five dollars a month. They need not go as far as Southern California. Let some of them come over on the Eastern slope of the Sierras. Here they can get from twenty to thirty dollars a month. But they will be expected to do the work of housemaid and servants—to cook, clean, make beds and, in short, work. They will not be expected to lead the same lives of indolence as their mistresses. They will be expected to be working women and girls. Were there many of them in the country, willing to do housework, the hated coolie would find his occupation gone, as a housemaid, cook and house servant. This would be a condition of affairs devoutly to be desired. But it is not and will not be. The modern woman who has to earn her bread does not wish to do it as a housemaid or servant. She would rather starve in a garret on three dollars and sixty cents a week than work in anybody's kitchen at twenty dollars a month. Kitchen work and dish-washing would lower her in the social scale and she would be apprehensive that she might not be called a lady. Or her mistress might not desire that she be considered one of the family enough to be permitted to eat at the same table, or occupy the parlor, where her friends and acquaintances called upon her. For these reasons she will rather live a miserable, starved life on three dollars and sixty cents a week. And the sleek and well-fed Chinaman will still remain master of the situation, do his work docilely, steal half as much again as his wages amount to, and send his savings to the Powers Land, from whence they will never again mingle with the trade or commerce of the place where they were accumulated.

It is so seldom that Nevada gets any consideration, beyond its own boundaries, that when a few words of praise are spoken or written about it they are eagerly seized upon and made the most of. The *Daily Report*, of San Francisco, has for many years had a very fair knowledge of the north of Nevada, both as a mining and agricultural State, and for that reason its views can be safely quoted as presenting the cases fairly. In a recent article that paper says:

When California shall be filled up with population, so that its lands will no longer be cheap, and its hills will have been thoroughly prospected and located, Nevada's turn will come. It may even come before California's tide of immigration shall have ceased to flow for a portion of such a flood affairs fitters away into adjacent territory when the river of immigration is booming. Nor will this new phase of Pacific Coast settlement be long delayed. Men and capital are pouring into California very fast now; with each succeeding year the influx will be vastly greater and in a few years people looking for the great and sudden opportunities a comparatively new State offers to the enterprising and the adventurous. Northern California now—will have to invade Nevada to seek their fortune, and will find it there. Nevada is at present an almost unknown land. The greater portion of even Californians regard it as a mass of rugged mountains, set around with wide and dreadful deserts of alkali—a place in which a lucky miner, at the cost of much hardship and many disappointments may occasionally achieve a bonanza, but still a place in which even a bonanza could hardly induce a civil human being to live. The do not understand what a change a few hundred thousand dollars in the hands of far-sighted, patient and resolute Yankees would accomplish; how a railroad or two, some settlers with other notions besides sudden fortune and a jamboon would effect. Not that all Nevada take that view of life, although by far too large a proportion of the 90,000 do. Fortune, in Nevada, does not lie only in its auriferous quartz veins, but in copper, lead, coal, marble, salt, sulphur, borax, and other deposits of indispensable minerals. It is also assured by its great agricultural resources, for even the most arid of its deserts has abundance of water beneath it nearly within reach of a man's arm. In 50,000,000 acres of valley land, rich in soil, and now open to settlement, lies a magnificent future for Nevada, even though her mountains were never to echo to the work of the miner; and there are valleys, too, where all the semi-tropical fruits of which Los Angeles, Butte, San Diego, Sonoma, Placerville and Nevada boast, could be equally well grown. San Franciscans are accustomed to talk as though this city's tributary territory had been

reduced by Eastern conquest to California only, and possibly a small slice of Arizona and Oregon. Let us recognize in Nevada a future empire, and be wiser in regard to it than we were in regard to Oregon. Let us be the first in the field there—the pioneers, not the tenderfeet of the rapidly approaching new era.

Out of 40,000 Sioux Indians, there are 35,000 still in heathenism. There are sixty-six tribes on the Western prairies for whom nothing is yet done. There are 40,000 Indians of school age; but when every school is packed to its utmost only 12,000 can be accommodated. This includes Government schools, Roman Catholic schools, and all; so that those under mission teachers would be far less a number than 12,000.

There are now in the city of Constantinople, besides the missionaries of the American Board and the missionaries of the Baptist Publication Society, a Campbellite, a Quaker missionary, and a Mormon missionary.

TEACHERS TALK.

First Meeting of the Nevada Educational Association.
Special Correspondence, *Gazette*.
CARSON, January 14, 1888.

The attendance at the first meeting of the Association at Carson on Friday and Saturday last was very fair considering the extremely cold weather. Reno was well represented by Messrs. Leroy D. Brown, Orvis Ring and W. M. Miller, Misses S. A. Harris, H. R. Guthrie, Frank Grippen, Ada Lackey and Emma Cutting.

The ladies of Carson took an active interest in the meeting and among those present were Mrs. D. A. Beuder, Mrs. Gov. Stevenson, Mrs. C. N. Noteware, Mrs. C. C. Atherton, Mrs. J. G. Fox and many others.

Miss Helen R. Guthrie, of Bishop Whitaker's school, read a very interesting essay upon "Methods in Work," and Miss Addie Harris presented an essay upon "Primary Reading." Both essays were highly appreciated by the audience and it is to be hoped that this will not be the last appearance of these ladies in public.

Mr. Walter M. Miller, of the State University, gave a very practical illustration of teaching physics with improvised apparatus. Miss M. E. Jones, the very competent teacher at the Orphans' Home, showed her method of teaching sewing and drawing with two well trained classes from that institution.

Mr. S. Summerfield, Principal of the Empire schools, delivered an eloquent lecture upon the subject "The Press as a Public Educator," a very timely topic, and the able manner in which he handled the subject was a surprise even to his intimate friends. His vocabulary is very extensive, his enunciation clear and what is still better, his arguments were logical and directly to the point. He is a young man endowed with great natural ability, and as he is a very hard student will make his mark in the history of Nevada.

As he spoke without notes we are unable to give more than a very brief extract from his address. Teachers are very apt to overlook the importance of the newspaper as a factor in the popular education. The newspaper is power in the land because it speaks daily to thousands. No great reform can ever be brought about unless the people are educated up to it by the ever vigilant press. No free government fears a free press, and were the government of Russia what it should be, it would not exercise a tyrannical censorship over its press. The liberty of the press may be abused by vile, sensational scandal-mongers that assume the garb of newspapers, but this abuse is as surely to meet its deserved punishment as did one form of that abuse that started in the depraved Anarchist press and received its just dues on the scaffold in Chicago.

It is the duty of the press to point out all dangers that threaten public liberty, and to return for this service it is the duty of the public to contribute liberally to its support. The next meeting will be held in Virginia City sometime in April or May.

Frozen to Death.

This morning "Joe" Duprez, the old scissor-grinder, who succeeded Mason about a year ago, was frozen to death in his cabin on the lot in the rear of the postoffice. From the appearance of the body, which was not undressed, it would appear that Duprez was in an intoxicated condition when he retired. The body lay stretched on an old and dirty mattress, without covering of any kind. The cabin presented an abject appearance, and poverty had stamped its imprint on all its belongings. As far as known the deceased was a relative in this country. An inquest will be held to-morrow.

Cured of Neuralgia.

EAST VYU, WESTCHESTER CO., N. Y., January 23, 1888.
I have been a great sufferer with pains in the back of my head, worse than any headache. I could not reach it with internal medicines at all, and during the cold weather I have suffered excruciatingly. I finally thought I would try an Alcock's Plaster applied to the nape of my neck. In less than half a day the pain entirely ceased.

Minnes Twin Again.

SAN ANTONIO (Tex.), Jan. 15.—Joe Cochran is an able-bodied, full-blooded negro of 30 years. He is one of triplets, and both his brothers are living. Lately he has taken up with a negro about 20 years old, also full-blooded, whose name is Anna Watkins.

On Wednesday Anna gave birth to three children, two boys and a girl. They have taken kindly to the bottle and are thriving. The girl baby is very nearly the average size; the boys are each somewhat smaller. The two boys came into the world together for the sufficient reason that from the shoulder to the elbow they are closely joined. They have two heads, two necks, four arms, two bodies and four legs, but are indisputably joined for life.

So far as they have afforded opportunity for observation they are of two separate minds and temperaments. The pains and wants of one do not affect the other. They are exact duplicates in form and features. They have been visited by a large number of curious males and females, white and colored, the ladies especially going into ecstasies over the "little ducks." The twins appear to have every chance of living.

Senator Stewart's Bill Modified.
WASHINGTON, Jan. 15.—Senator Stewart yesterday offered an amendment to his bill providing for the investment of certain funds in the Treasury. It provides that any person may deposit at any Mint or Assay Office gold or silver bullion and receive a certificate therefor. The price to be paid for gold bullion is fixed at \$1 per 25-10 grain and 9-10 fine, while the price for silver is to be fixed by the Secretary on the 1st and 15th of each month at the average price of silver in the New York market during the preceding fifteen days, provided that the price shall not exceed an ounce of gold for sixteen ounces of the same fineness. The certificates are to be in denominations of not less than \$1,000 nor more than \$2,000, and are to be legal tender, redeemable at any Treasury or Sub-Treasury. The bullion received is to be melted into bars. No more gold or silver certificates are to be issued, and those coming into the Treasury are to be canceled. No gold or silver is to be coined, except to meet the obligations expressly made payable in coin and to meet the actual wants for silver currency among the people. The Silver Coinage Act is repealed.

Whipping it Up.

TUCSON, Jan. 15.—Yesterday J. R. Douglas, Indian Agent at the Papago Reservation, seven miles south of Tucson, was arrested in the Fashion saloon, drunk. He has been celebrating by treating Indians to whiskey until the greater portion of the male population were drunk and ready to go on the warpath. He then rode into town, and was painting the town red, when he was arrested by Deputy United States Marshal Underwood. He has only recently been appointed, and claims to be a Republican from way back and did not know any better. He will have a trial on Monday, charged with giving liquor to Indians.

A Brutal Sheep-herder.

PENDLETON, Jan. 15.—Thomas Longley, a prosperous farmer of Umatilla county, near Centerville, was attacked in his home yesterday by William Sampson, a sheep-herder, and brutally beaten. The trouble originated over a land dispute between an employee of Longley and Sampson. Mr. Longley furnishing his employee with money to defend his rights. This enraged Sampson. Sampson continued to beat and kick Longley, and finally left him for dead. A vigilance committee has been organized and, and if Sampson is caught the county may be saved the expense of a trial.

Victims of the Blizzard.

MINNEAPOLIS, Jan. 16.—A Mandan, Dakota, special to the *Journal* says: The mail driver was frozen to death between New Salem and Stanton. The three day blockade on Northern Pacific was raised this morning. The *Journal's* revised list of blizzard fatalities shows 97 deaths in Dakota, 13 in Minnesota, 6 in Iowa, 17 in Nebraska and 2 in Montana, total, 135, besides 53 reported missing.

Died of His Wounds.

NEVADA CITY, Jan. 15.—J. P. Boardman, who shot himself with suicidal intent Tuesday morning, died of his wounds last evening. Deceased was a native of England and was about 60 years of age. He came to this country in 1850.

Samuel Ralston, the eldest son of the late William C. Ralston, committed suicide at Georgetown, Cal., on the 13th inst.

In the Congressional Committee assignments, Representative Whitthorne gets a high position on Committee on Naval Affairs, and is made Chairman of the Indian Depredations.

A Reprieve for the Condemned.

Wretched men and women long condemned to suffer the tortures of dyspepsia, are filled with new hope after a few doses of Hostetter's Stomach Bitters. This budding hope blossoms into the fruition of certainty, if the Bitters is persisted in. It brings a reprieve to all dyspepsia who seek its aid. Flatulence, heartburn, sinking at the pit of the stomach between meals, the nervous tremors and insomnia of which chronic indigestion is the parent, disappear with their hateful progenitor. Most benighted of stomachics! who can wonder that in so many instances it awakens grateful eloquence in those who, benefited by it, speak voluntarily in its behalf. It requires a graphic pen to describe the torments of dyspepsia, but in many of the testimonials received by the proprietors of the Bitters, these are vividly and truthfully set forth. Constipation, biliousness, muscular debility, malarial fevers and rheumatism are relieved by it.

THE CARSON MINT.

Anxiety of the Nevadans as to its Closing Set at Rest. A press dispatch dated Washington, January 12, says: For some time past the people of Nevada have been fearful that the mint at Carson would be abolished. The idea gained currency that the present administration was hostile to the interests of the West, and it was thought that the removal of Dr. Tuttle, minter and refiner, to the Philadelphia Mint, would mean the closing of the institution. For several days past Senator Stewart has been deluged with telegrams from anxious Nevadans, urging him to have a successor to Tuttle appointed before the latter took his departure for the East. To-day Mr. Stewart called on the President, and was assured that there was no intention whatever to abolish the mint and that a successor to Mr. Tuttle would be nominated shortly. The latter gentleman will be allowed to remain in Carson until the appointment is made.

ALFALFA.

Diversity of Opinion of its Merits Among Cattle Raisers. A diversity of opinion exists among cattle raisers as to the value of alfalfa pasturage, that is, where the feed consists exclusively of alfalfa. It is argued by a number of cattle raisers that such feed is the cause of disease among stock, that it is a butter producing grass, that it ruins the breeding qualities of cows and heifers, and is only good for fattening stock for the beef market. All stock-growers acknowledge that a few acres of salt grass enclosed in an alfalfa pasture, is of great value to the stock, no matter for what purpose they are raised. Many farmers now stock their wheat and barley straw in their alfalfa pastures, and find it of great advantage in fattening their stock, increasing the milk and butter production of their dairy cows, and in every way being an advantage to their health and growing qualities. It is noticed, too, that both horses and cattle will leave alfalfa hay for days at a time to feed on straw stacks thus placed in the pasture.

Should be Attended To.

Sometime ago an item appeared in the GAZETTE stating on the authority of T. K. Hymers, Chairman of the Board of County Commissioners, that the reason why nothing had been done by the Board in regard to placing the fire department on a substantial basis, was because the District Attorney had not prepared the ordinances covering the matter. Now comes the District Attorney, who to-day, when questioned by a GAZETTE reporter, said that the ordinances had been ready for the past three weeks, during which time he has endeavored to have the Board consider them. Among the ordinances is one creating a Board of Health, the organization of a Police department, and other matters of great moment, especially the former, which should be attended to at once. The Board should receive the ordinances at once, even if a special meeting should have to be called.

A Wood Famine Imminent.

Reno is on the eve of a wood famine. Dealers say that there are not more than fifty cords of wood remaining unsold in town. Unless Superintendent J. H. Whited soon places some freight cars at the disposal of dealers with which wood can be hauled from Verdi and other supply points, the people of Reno will be in danger of freezing. Mr. Whited now has a chance to enroll himself on Reno's list of public benefactors, or be consigned to the demolition bow-wows by an indignant populace. He can take his choice.

Carson's Public Building.

A press dispatch from Washington relative to the new public building at Carson gives the impression that \$20,000 had already been squandered, with nothing beyond salary expenditures to show for the money. Superintendent Ryland says that the dispatch is untrue in nearly every particular, and that as a matter of fact the whole expenditure for material, salaries, labor, and disbursing agent's commission will not exceed \$5,000.

Water-Hunters, Take Heed!

Owing to the scarcity of water in town, parties have been utilizing the fire hydrants and cisterns, and through carelessness the hydrants have frozen. There is a town ordinance which imposes a fine of \$25 on any person using the hydrants and cisterns for any other but fire purposes, and it is the intention of the authorities to enforce it.

Attempted Suicide.

Spanish Annie, a woman of easy virtue, residing on Lincoln Avenue, attempted to cross the dark river at an early hour Sunday morning, by means of an ounce of laudanum. She was discovered in time, and Dr. Bergstein, with the aid of a stomach pump, relieved her of the deadly drug. The desertion of her lover is ascribed as the cause of the rash act.

PERSONAL.

D. B. Lyman, Superintendent of the Bonanza mines, laid over here last night.

W. E. F. Deal, of Virginia, J. R. Judge and Tremor Coffin, of Carson, had business with the District Court here to-day.

Geo. Russell, President of the Nevada Live-Stock Association, arrived from Elko this morning, accompanied by his two daughters, who are pupils of the School for Girls.

John Hymers has purchased Nigger Henry's team, and is now engaged in a general express business.

BREVITIES.

Local and General Intelligence. Truckeites are afflicted with the small-pox scare.

Mrs. C. A. Dealy arrived from Oakland this morning.

Justice Young's docket recorded a case of Sunday drunk to-day.

Seven cents is the price now paid for beef cattle in Sierra Valley.

Judge Bigelow arrived from Elko yesterday, and held court here to-day.

Truckee is obtaining subscriptions for the establishing of a pest-house.

During the year 1887 Judge Bigelow held court 201 days in his jurisdiction.

Good skating can now be had on the river in the vicinity of the Virginia-street bridge.

So far this Winter six men have been found frozen to death in different parts of this State.

The thermometer registered 47 degrees below at Alturas, Modoc county, Cal., last week.

The stockmen of Western Idaho are organizing an association for protection against thieves.

The county jail of Storey county now shelters nineteen individuals from the cold blasts of Winter.

James Murphy, of Santa Clara, Cal., and who has important cattle interests in this State, is dying of dropsy.

Friday night was the coldest night ever experienced in San Francisco since the American occupation.

Mrs. Spencer died at Sierra City this week of small-pox. This is said to be the first death there from this disease.

The overland, which was due here last night at 6:45 o'clock, did not put in an appearance until after eight o'clock this morning.

The scissors-man of the Virginia Chronicle has a handy way of appropriating news from this paper, without giving proper credit.

There is not a particle of snow left in Mason Valley. The ground is bare, but in the hills there is snow from two to ten feet deep.

Owing to the extreme cold, and consequently lack of water power, the Virginia electric light has been compelled to suspend operations.

The water main which crosses the river has frozen tight, and residents on the south side are compelled to take water from the river.

A meeting of the Reno Guard is called for this evening. Every member is requested to attend, as business of importance will be discussed.

Mike McGowan, the notorious man-eater of the Comstock, is again in duration vile. This time he is in for six months for being drunk and disorderly.

The Reno electric light is now run by steam. The 9 o'clock circuit will be on to-night, and next week the 12 o'clock circuit will also be put on.

The ordinance prohibiting gambling within certain limits in San Francisco has been declared invalid, and is so. It is said that all its old time vigor.

Personal in Lyon County Times: Dobbins, of the valley, contemplates sobering up and going to work on his copper mine, which is a good one, in the Spring.

There are immense deposits of snow in the Toiyabe, Pine Creek, Monitor and Tybo mountains, Eastern Nevada. The ranchmen are shaking hands with it.

Every mill run by water power in Reno has been compelled to shut down, and judging from present indications it may be weeks before work is again resumed.

Old-timers say the Winter of 1879 was more severe than the present one. At that time ice was cut out the river which measured twenty-four inches in thickness.

The northern citrus belt is wrestling with the cold snap. At Petaluma ice two inches thick formed Saturday, and the raging Sacramento is frozen over at the city of that name.

Unless the editor of the Sierra Valley Leader continues to disfigure his paper he will oblige the GAZETTE by dropping it from its exchange list until the small-pox epidemic is over.

Carson is keeping up its lull as being the wickedest town in Nevada. The latest sensation there is the birth of a child to a young girl who claims that its father is a well-known married man.

At the morning services yesterday of the Methodist Church over \$1,100 was contributed by those present to pay for the recent improvements. Six members responded to the tune of \$100 each.

Pat Dugan, an old resident of Eureka and one of the owners of the Richmond mine previous to its sale to the Richmond company, has been adjudged insane, and is now an inmate of the State asylum here.

The young men caught in the robbery of last Thursday in Virginia City were each sentenced to six months in the county jail Saturday. The three girls, captured at the same time, will have a hearing to-day on charges of vagrancy.

In Ruby Valley there are about 40,000 head of cattle, and the snow is from four to six feet deep, thus covering up all feed. Unless the weather breaks soon stockmen agree in saying that the mortality there among cattle will be something frightful.

The infant child of Dr. Mayo Greenlaw died yesterday morning after an existence of but three days. As his friends shared in the father's delight when the child was born, so will they mourn with him while the dark cloud hovers over his household.

The cause of the delay of the west-bound train is said to be due to the water freezing up in the tanks along the road east of Elko. The other day a freight train died on the road for want of water and had to be hauled back on a side track by the passenger train.

Roll Waggoner, clerk in Abraham Brothers White House emporium, met with a severe but not serious accident this morning, which will confine him to his room for some time. While mounting a

step-ladder his foot slipped, and he fell to the floor, striking on his back.

George Russell, who arrived from Elko this morning, is reported to have said that the mercury touched 60 degrees below zero there last night. He also reports cattle as being in a poor way in the county, but in the Idaho country the outlook is favorable.

Mayor M. C. Gardner, of Carson, was a passenger for the Bay this morning. Something of great importance in connection with the case of his daughter, Clara Belle, must have happened, as it is reported he endeavored last night to engage an engine to make a special trip there.

At Halleck cattlemen are driving in cattle from the mountain ranges, and are putting them on feed. Quite a number have, after being corralled, succumbed to the cold, the hard drive in the snow causing them to become over heated, and the subsequent cold nights being too much for them.

For Sale.

\$30,000. Mrs. Howard offers her ranch on the Virginia road, the most beautiful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 80 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of cattle, vegetables and other products in value about \$5,000. By the expense of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. For \$30,000, 1/2 cash and the remainder in five equal annual installments. Interest at 8 per cent. per annum.

\$13,650. A. Banta's ranch located about five miles south-east from Reno is offered for sale. It consists of 45 acres, which will be sold at \$3 per acre, or for \$13,650 and on easy terms of payment. There is on the place a good house of eight rooms, two barns and other buildings. The place has plenty of fine irrigating water and as many as fifty springs of excellent drinking water. The ranch yielded this year 350 tons of hay, and pasture valued at not less than \$250. The total valuation of this year's yield is not less than \$3,000, and some one year's yield has amounted to much as \$5,000. As the ranch consists chiefly of pasture and meadow land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

FOR SALE. Lots 6, 11, and 12, in Block 4, Marshall's Addition, south side of river, very desirable location. House of two rooms (hard finished) and shed; lot 6 cleared; size, each 50 by 140. A bargain.

\$300. Lot 50x175 feet, on the Virginia road, short distance from court house; the best bargain in Reno for the price. Perfect title; ditch flows through the property.

80 ACRES OF LAND under improvement; good buildings and fence; 70 acres in alfalfa; 10 acres orchard—good bearing fruit trees; 2000 nursery trees; good well. Situated 1/2 mile from the C.P. railroad depot, Reno.

FOR SALE. Block 7 and 10, on east side of Virginia street, one door north of Fourth street; lot 50 by 140; house of five rooms. A very desirable piece of property.

FOR SALE. Lot 125 ft. by 140 ft., on east side of Virginia street, opposite residence of B. P. Leete. This is a very desirable piece of property.

40 ACRES OF LAND; 26 acres in alfalfa; 1200 forest trees; will under fence. Situated 1/2 mile from railroad depot, Reno. Roll 1-1, and beautifully situated for residences.

560 ACRES; 100 acres enclosed by a substantial fence; 50 acres under fine cultivation; balance wild land—good for pasture. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land. Perfect title to 50 inches of water.

New two-story house of three rooms hard-finished; good barn. Situated 3/4 mile from Reno. Price, \$5,000—\$2,000 down, balance on time at reasonable interest.

3,000 ACRES under substantial fence. ABUNDANCE OF WATER FOR IRRIGATION. 300 acres in wheat, barley and alfalfa. Controls an immense outside range for cattle or sheep.

\$2,000 WORTH OF HORSES, MARES AND COLTS. All kinds of farming utensils. Machinery, Wagons, blacksmith shop, etc. etc. Plenty of water close by. Ranch lies 20 miles south of Austin. This would make one of the best stock ranges in the state. Price, \$15,000. Easy terms of payment given.

Also several large properties in Truckee Meadows, properties in Stockton, San Jose, San Francisco and Alameda. Mines bought and sold. The firm has numerous correspondents who are dealers in mining property.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cooking, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this bad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents. (60w)

A Farmer's Cow.

The Guernsey cow is a good, strong farmer's cow, weighing usually from 900 to 1,200 pounds.

I have one weighing about 1,400 pounds. They have good bones and muscles. Their calves are a good size, and make good veal.

They have good, hardy constitutions, are good feeders and will bear forcing when butter brings remunerative prices. They have a beautiful yellow skin; consequently they produce yellow butter, even in winter. Their butter needs no artificial coloring at any season of the year, relieving one's conscience from the burden of deceit. They have a quiet, even disposition. Their tests are of good size; they have a good flow of milk nearly to calving time, and frequently they cannot be dried off even for the good of the cow, or the calf they are carrying. Their butter product is equal to, if not better than any cow the writer has had anything to do with. The bulls are tractable; I have never had a cross one. Now, if such a cow were brought before the farmers of this country it would not seem strange if she had her admirers.

A mining engineer, of Virginia City, has compiled statistics in reference to the Comstock lode which are interesting. The calculations are made from the year 1860, and are said to be as correct as can possibly be obtained. The total product of the mines is estimated at \$305,000,000. Out of this there has been paid in dividends to stockholders \$126,431,076. The value placed on slime and tailings, which all went to the mill owners, is \$35,000,000. The total expenditures foot up \$168,403,943. The amount of assessments levied is figured at \$57,615,400, which leaves a value in favor of the dividends of \$68,815,510. The amount expended above assessment, and which must be credited to proceeds of mines, is \$110,788,483. On the whole the showing is said to be most favorable, and yet deducting the \$35,000,000 which has drifted into the pockets of the managers, it has cost shareholders exactly \$168,403,943 to produce \$126,431,076. It all depends what view one takes of the statement, which has been prepared after a lengthy research involving an immense amount of figuring.

The Promontory Live Stock Company, of Utah, of which Charles Crocker, of the Central Pacific railway, is President, has bought in the past few months 30,000 stock cattle. Their immense ranch adjoining Salt Lake comprises a million or more acres of the choicest grazing land in that Territory. Men with money don't seem to think that cattle raising on the open range is a bad investment. The time is not a long way off when western cattlemen will be on top again.—[New Mexico Stock Grower.]

The oft reiterated statement that the buffalo was virtually extinct on the prairies of the South-west is refuted by hunters from the Panhandle of Texas, who assert that there are yet vast herds of buffaloes roaming the prairies and staked plains of Western Texas, and they have given positive proof of the truthfulness of their claim by the disposal of carcasses and hides to the number of fifty or more in various towns in Texas and Southern Kansas.

The famous cow Electa, for which her owner, A. J. Cowan, of Venango county, Pa., once refused \$10,000, was sold by him to an Oil City butcher the other day for \$50, she having been ruined by over-feeding, says a contemporary. Although this cow stood at the head of all milk producers in this country a few years ago, her pedigree was never known. She came to Cowan's family as an estray. She was a famous prize winner.

Save The Children. They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy a positive cure. It saves hours of anxious watching.

BLACKLEG IN CATTLE.

I AM making a tour of this State introducing the above-named Remedy.

It is infallible; I have the proofs I guarantee my work. I treat cattle in herds that are dying, and warrant them for fifty cents a head never to die from the disease.

I have been treating cattle in California for nearly three years successfully, and have sold the Remedy to most of the principal stockmen in the State.

I am prepared to furnish satisfactory proofs of the efficacy of my invention

INFANTILE SKIN DISEASES

Our oldest child, now six years of age, when an infant six months old was attacked with a violent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, and the lower portion of the little fellow's person, from the middle of his back down to his knees, was only solid mass of ugly, painful, blotched, and malodorous. We had no rest at night, no peace by day. Finally we were advised to try the CUTICURA REMEDY. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

THOUSANDS OF CHILDREN

Are born into the world every day with some cutaneous affection, such as milk crust, scall head, scurf, or dandruff, sure to develop into an agonizing eczema, the itching, burning, and disfigurement of which make life a prolonged torture unless properly treated.

A warm bath with CUTICURA SOAP, an exquisite skin healer, and a single application of CUTICURA, the Great Skin Cure, with a little CUTICURA RESOLVENT, the New Blood Purifier, are often sufficient to arrest the progress of the disease, and point to a speedy and permanent cure.

Hence, no mother who loves her children, who takes pride in their beauty, purity, and health; and in bestowing upon them a child's greatest inheritance—a skin without a blemish, and a body nourished by pure blood—should fail to make trial of the CUTICURA REMEDIES.

Sold everywhere. Price, CUTICURA, 25c; SOAP, 25c; RESOLVENT, 25c. Prepared by the FORTNA DRUG AND CHEMICAL CO., Boston, Mass.
